

## FREE TRAINING FOR NURSES.

Young Women of Small Towns and Country Districts to be Favored.

By the terms of a fund to be administered in connection with the Philadelphia School for Nurses, Witherspoon Building, Philadelphia, a number of young women from every county will receive free training in nursing. It is planned to ultimately reach and help in this way every township and village.

The young women will be provided with room, board, nurse uniforms and all the refinements of a well-appointed Christian home. At graduation the diploma of the School and the Order of the Red-Cross will be conferred, qualifying for practice in any State or country; the railroad fare will then be paid back home.

Those applying and chosen to receive the benefits of this fund will be given two years' training, with a rich experience in nursing the sick poor of the city under skilled leaders. The term may be shortened to eighteen months by taking a preliminary course of six months' reading and study at home. A special short course enables young women to quickly qualify themselves for self-support and a substantial income.

In addition to regular nursing, the young women are taught how to preserve their own health; how to recognize, avoid and destroy contagion; how to establish and maintain perfect sanitary conditions about the home; they are prepared for positions as office nurse and physician's assistant; they get a practical knowledge of city mission movements, deaconess training, college settlement work, and are also trained for special positions of trust in institutions.

The School is ten years old and is endorsed by physicians, leading educators and prominent men throughout the country.

## CARTER BUYS PROPERTY.

Has Purchased Property in East Gainesville and Will Build Nice Home.

N. R. Carter evidently believes in the future of Gainesville. He has purchased a desirable lot on South Carter street, East Gainesville, near the home of Postmaster Arnow, and proposes in a short time to erect a neat and modern residence.

Work upon this building will begin as soon as material can be secured. Building has been progressing in Gainesville at such a rapid rate that it is almost impossible to secure prompt delivery of material. Mr. Carter expects, however, to have the material on the ground in a reasonable length of time, and the carpenters will be put at once to work.

## Schedule is Bad.

F. M. Ramsey of Wacahoota was in the city yesterday. Mr. Ramsey states that the discontinuing of the train over the Gainesville and Gulf Railway south of here, which arrived in Gainesville in the morning and returned in the afternoon, would work a great inconvenience on the part of the people of that section who have become accustomed to coming to Gainesville to do their trading. With the present schedule it is impossible to make a round trip in one day. Superintendent Barker of the Gainesville and Gulf states that this arrangement is only temporary, however, and that the train will be put on again in a short time.

## Death of Sheriff Pickett.

W. Bloxham Pickett, sheriff of Duval county, died at his home in Jacksonville on Wednesday morning, September 27, 1905, aged 33 years. He was ill only a short time, being on the streets Saturday. He was a native of Duval county, a good citizen and faithful officer. His death will cause universal sorrow in his home county and throughout the State where he is known.

## Attacked by a Mob

And beaten in a labor riot, until covered with sores, a Chicago street car conductor applied Bucklen's Arnica Salve and was soon healed and well. "I use it in my family," writes G. J. Welch of Tekonsha, Mich., "and find it perfect." Simply great for cuts and burns. Only 25c at all drug stores.

## A Daily Mystery.

A man whose income is \$50 a day lunching alone in a fifteen cent restaurant and a clerk whose income is \$50 a month lunching with a young woman in a restaurant where the cash register doesn't ring up anything under \$1. Which is cause and which is effect? Does the fifty-dollar-a-day man lunch thus cheaply that he may be reminded of troubles on earth, or does the fifty-dollar-a-month man dine thus expensively because he wants to forget? Or is the one a fifty-dollar-a-day man because he is careful and the other a fifty-dollar-a-month man because he is a spendthrift?—St. Louis Post-Dispatch.

## Sensitiveness of Plants.

Darwin gave it as his opinion that some plants can see, and an Indian botanist relates some curious incidents which tend to verify the belief. Observing one morning that the tendrils of a convolvulus on his veranda had decidedly leaned over toward his leg as he lay in an attitude of repose, he tried a series of experiments with a long pole, placing it in such a position that the leaves would have to turn away from the light in order to reach it. In every case he found that the tendrils set themselves visibly toward the pole and in a few hours had twined themselves closely around it.
